

4.3" Modero S Series Tabletop Touch Panel

MST-431 (FG2265-07)

Overview

The MST-431 / 4.3" Modero S Series Tabletop Touch Panel is a control surface for managing a wide variety of digital and analog devices in conference rooms, classrooms and other types of spaces. The MST-431 has a sleek design that remains affordable due to its ruggedized plastic housing. Key features include a brilliant 24-color depth, PoE connectivity, video streaming, and VoIP support – all at an economical price point.

Common Applications

- The MST-431 is ideal for small to mid-size conference rooms on a tight budget, as well as smaller rooms or huddle spaces that require a more flexible and powerful control interface than a keypad or ControlPad. It can also serve as a second control panel in a large conference room or auditorium.
- Combined with the secure table mount kits and Kensington mounts, the MST-431 is perfect for classrooms and other learning spaces where the panel can be securely fixed to a table or other flat surface.

Features

- Powerful Graphics Powered by the G4 graphics engine, the Modero S Series features streaming video and brilliant 24-bit color depth
- Elegant & Responsive User Interface Exclusive SmoothTouch™ display supports single touch gesturing and delivers responsive performance
- Architectural Design Consistency Install both Modero S and Modero X touch panels throughout a facility for consistent style on any budget
- Secure Table Mounting Option Our beautifully styled secure mounting plate attaches to the Modero S tabletop touch panels and secures with under-table tamper resistant bolts making it virtually theft proof
- Optional Kensington Mount If it's not possible or desirable to mount the touch panel to the table, the secure plate can also be used in conjunction with a Kensington Lock
